Catellani & Smith®

manifattura dal 1989

Dal 1989 immaginiamo e costruiamo la nostra luce. Lo facciamo con la testa
e con le mani. Questo ci ha permesso di distinguerci e ci ha portato ad avere una
consapevolezza sempre più forte della nostra identità.
I nostri prodotti non sono i migliori, sono i nostri.

Enzo Catellani

We’ve been imagining and shaping light since 1989. With our heads, and with our hands. This is what has earned us renown on the market and given us an increasingly strong awareness of our identity. Our products are not the best. They’re simply ours.

Enzo Catellani

Seit 1989 entwerfen und erschaffen wir „unser“ Licht. Dazu setzen wir Verstand und Handwerk. Das hat uns die Möglichkeit verliehen, uns abzuheben und ein immer stärkeres Bewusstsein für unsere Identität zu entwickeln.
Unsere Produkte sind nicht die besten – es sind unsere.

Enzo Catellani

Nous créons et fabriquons notre lumière depuis 1989. Pour cela nous nous servons de notre tête mais aussi de nos mains. C’est ce qui nous a permis de nous distinguer et nous a amenés à mieux prendre conscience de notre identité. Nous ne fabriquons pas les meilleurs produits, mais c’est bien nous qui les fabriquons.

Pòta!

“Pòta!” è un nuovo corpo illuminante che abbiamo realizzato per poter immaginare nuove forme. Nuove lampade che evocano i primi gesti della Catellani & Smith. Dove il volume gioca con la leggerezza. Utilizzando metalli belli da vedere, abbiamo creato una struttura capace di condurre l’energia. Il risultato è un disegno sottile che nasce dalla funzione. Tutto è pensato per essere costruito a mano. D’altronde è quello che sappiamo fare… Pòta!

“Pòta!” is a new lighting element we have created, allowing us to imagine new shapes. New lamps that echo the early Catellani & Smith creations. Lamps where lightness is the essence of volume. Where we’ve used attractive metals to shape a structure able to convey energy. The result is a slender design inspired by function. Conceived to be built by hand. Because that’s what we do best...

„Pòta!“ ist ein neues Leuchtobjekt, das wir geschaffen haben, um neue Formen zu erdenken. Neue Lampen, inspiriert von den ersten Kreationen von Catellani & Smith. Wo Volumen mit Leichtigkeit spielt. Mit ästhetisch ansprechenden Metallen haben wir eine Struktur geschaffen, die Energie leitet. Das Ergebnis ist ein feines Design, das aus der Funktion heraus entsteht. Alles ist darauf ausgelegt, von Hand gefertigt zu werden. Schließlich ist es genau das, was unser Know-how ausmacht ...

« Pòta! » est le dernier luminaire que nous avons fabriqué pour pouvoir imaginer des formes nouvelles. Des lampes originales qui évoquent les premiers gestes de Catellani & Smith. Où volume et légèreté jouent de concert. En utilisant des métaux agréables à regarder, nous avons créé une structure capable de conduire l'énergie. Il en résulte un design subtil, fruit de la fonction qui lui est attribuée. Tout est conçu pour être fabriqué à la main. Après tout, c'est bien là notre savoir-faire...

L’uso del nuovo sistema di accensione “Electrical-Fire", ancora in fase di sperimentazione, non consente alla fiamma di scaturire al primo colpo. Si consiglia, pertanto, di premere ripetutamente l’interruttore fino all'accensione della candela. Importante! Se avviene il tutto, chiamare immediatamente lo +39.035.65.60.88 per comunicare l’avvenuto Miracolo.

The “Electrical-Fire” ignition system, still under development, does not allow the flame to light at first go. We therefore suggest you press the button repeatedly until the candle lights. Important! If the candle lights successfully, please contact us immediately on +39.035.656.088 to report a Miracle.

Die Anwendung des neuen Anzünde-systems “Electrical-Fire“ ist noch in der Experimentierphase, so daB die Flamme beim Einschalten nicht immer sofort anspringt. Man empfiehlt daher, den Schalter bis zum Auzünden der Kerze wiederholden zu betätigen. Wichtig! Geschieht dies mit Erfolg, rufen Sie bitte sofort die Nr. +39.035.656.088 an, um uns über dieses Wunder zu informieren.

Le nouveau système d'allumage « Electrical-Fire », encore au stade expérimental, ne permet pas à la flamme de jaillir au premier coup. Nous conseillons par conséquent d'appuyer plusieurs fois sur l'interrupteur jusqu'à ce que la bougie ne s'allume. Important ! Si tout ceci devait arriver, appeler immédiatement le n° +39.035.656.088 pour faire part de ce Miracle.

Mettiamo in luce il concetto di tailoring
Mettiamo sul tavolo la nostra esperienza. Una storia iniziata nel 1989 che nel tempo ci ha visto affiancare alla produzione di lampade, prima l'ideazione e la realizzazione di installazioni, poi la costruzione di pezzi "fuori serie" pensati per esigenze specifiche dei vari committenti. Per arrivare poi alla partnership nella realizzazione di importanti progetti di respiro internazionale. La nostra passione si fonde con la vostra. La nostra esperienza è per mettere in luce i vostri progetti.

Let's throw light on the tailoring concept
Let's put our experience on the table. A story which began in 1989 which has seen lamp making accompanied first by installation design and creation and then by the construction of one-of-a-kind pieces designed for the specific requirements of a range of clients. And then partnership in the creation of important international scope projects. Our passion melds into yours. Our experience shines a spotlight on your projects.

Bei uns steht das Konzept des Tailoring im Rampenlicht
Wir stellen Ihnen unsere gesamte Erfahrung zur Verfügung. Eine Geschichte, die im Jahr 1989 begann. Im Laufe der Zeit gesellten sich zur Leuchtenproduktion zunächst das Entwerfen und Realisieren von Installationen und dann die Herstellung von Einzelanfertigungen, speziell auf die persönlichen Ansprüche der verschiedenen Auftraggeber abgestimmt. Schließlich kam es zu Kooperationen für die Verwirklichung bedeutender Projekte internationaler Reichweite. Unsere Leidenschaft geht ganz in Ihrer Leidenschaft auf. Unsere Erfahrung dient dazu, Ihre Projekte ins richtige Licht zu rücken.

Soulignons le concept de tailoring
Exposons notre expérience. Une histoire qui a commencé en 1989, et qui au fil du temps nous a vu ajouter à la production de lampes, tout d'abord la conception et la réalisation d'installations, puis la construction de pièces « hors série » conçues pour les exigences spécifiques de différents commettants. Pour arriver ensuite au partenariat dans la réalisation d'importants projets internationaux. Notre passion se conjugue avec la vôtre. Notre expérience sert à mettre en lumière vos projets.
