UNSEEN STYLOS

New lighting configurations introduce a refined presence in space, crafted through calibrated modules and material insets. Cylindrical blown-glass volumes and turned brass inserts define the Stylos collection, a rhythmic sequence of elements and proportional variations capable of adapting to different contexts. Novel possibilities for spatial interpretation and configuration also extend to the other Venicem collections. Beak, Circle, Kitami, Optical, Soul, and Equilibre incorporate material and design integrations, expanding their application range and articulating their presence.

Nuove configurazioni luminose introducono una presenza articolata nello spazio, costruita attraverso moduli e innesti materici calibrati. Volumi cilindrici in vetro soffiato e inserti in ottone tornito definiscono la collezione Stylos, una sequenza ritmata di elementi e variazioni proporzionali capace di adattarsi a contesti differenti. Inedite possibilità di lettura e configurazione dello spazio si estendono anche alle altre collezioni Venicem. Beak, Circle, Kitami, Optical, Soul ed Equilibre accolgono integrazioni materiche e progettuali, ampliando il campo applicativo e articolandone la presenza.

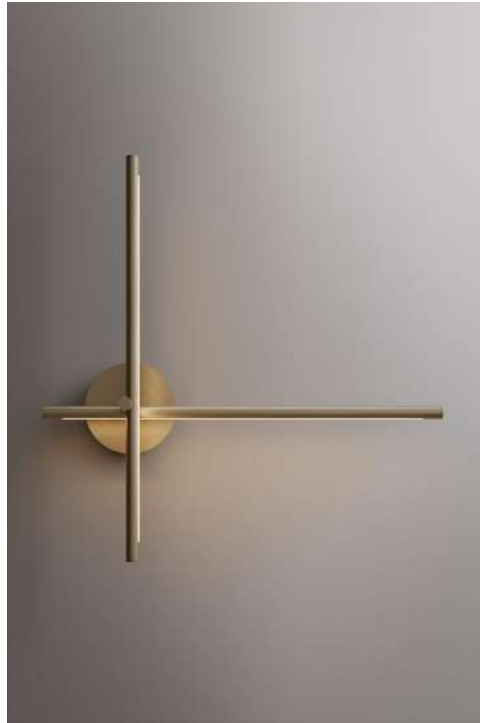

P.2 STYLOS CEILING L
Ø25 H25 cm
M11 Light burnished brass
WS Satin antique white glass

P.3 STYLOS CEILING M
Ø25 H17 cm
